

MicroRNA in myelodysplastic syndrome

Croatian-Czech MDS Cooperative Group meeting on behalf of ELN MDS-EUROPE

Clinical Hospital Merkur

Zagreb, March 16th, 2019.

- 9:15 Welcome/introduction (Inga Mandac Rogulj)
- 9:20 What's New in Myelodysplastic Syndrome Research? (Inga Mandac Rogulj)
- 9:40 A genotype-phenotype relationship in myelodysplastic syndrome (Gordana Kaić)
- 10:00 Czech 10-years' experience in miRNA research in MDS (Michaela Dostálová Merkerová)
- 10:20 Coffee break
- 10:40 Micro RNAs expressions – Croatian pilot profiling in MDS (Mirjana Mariana Kardum Paro)
- 11:00 qPCR, ddPCR and small RNA-seq applications for circulating miRNA analysis – benefits and pitfalls (Zdeněk Krejčík)
- 11:20 Discussion
- 12:00 Lunch
- 13:00-16:00 Croatian-Czech MDS Cooperative Group EUMDS sub-study in microRNA

The grants:

Croatian Science Foundation, project number 5842

Ministry of Health of the Czech Republic 16-33617A, 16-31689A and 00023736
